

Booran Rd Reservoir Demolition, Glenhuntly Vic

The former Melbourne Water Reservoir located on Booran Road occupies 1.6Ha and has been unused for well over 30 years. Glen Eira city council are now redeveloping this land into a passive recreational space for use by the local community. Whilst the majority of the concrete wall will be demolished, the reservoir walls along the east and north side will be retained as will the central sluice gate, which controlled water levels in the reservoir, as a link to the past history of the site,. Both of these will become key components in the park design.

Key Aspects

- Concrete demolition within a residential area
- Noise control
- Pedestrian/ Traffic Management
- Proximity of site to main road.

Works Include

- Mass concrete demolition
- Demolition of Earth embankments
- Bulk Earthworks
- Stormwater protection
- Tree and stump removal
- Protection of assets.
- Site dewatering
